

Guidelines for Clients and Families Regarding Exclusion Due to Illness

As an agency working with the public, Lansdowne Children's Centre is accountable to provide a healthy environment. In this regard, individuals are encouraged to remain at home and away from others when ill, per Brant County Health Unit guidelines.

Children and other family members with the following conditions should remain at home and away from others:

CONDITION	EXCLUSION PERIOD
Chickenpox	until well enough to participate in all activities with no accompanying fever regardless of the state of the rash Chickenpox is a reportable disease and must be reported to the Local Medical Officer of Health
Diarrhea	24 hours after Diarrhea stops
Fever	no symptoms for 24 hours
Head lice	until after the first treatment and no nits remain in the hair
Impetigo	until the antibiotic prescribed by a doctor has been taken for at least one full day
Influenza	until 5 days after symptoms began
Pink Eye, bacterial (conjunctivitis) with Discharge	until the antibiotic prescribed by a doctor has been taken for at least one full day
Ringworm	until the treatment has started
Strep Throat	until antibiotic treatment has been taken for one full day
Vomiting	no vomiting for 24 hours

For more information on these and other diseases please visit the Brant County Health Unit website at www.bchu.org

or contact your family doctor or TELEHEALTH Ontario at 1-866-797-0000 for advice about care and treatment.

Lansdowne Children's Centre reserves the right to send clients home from programs if our employees believe the client is too unwell to participate in services.
